CHILDREN AND PONIES HAVE DAY AT SHOW

Youngsters Enjoy the Exhibit of Small Equines and Excite the Envy of Shivering Men by Indifference to the Weather.

Horse Show opened at the Garden to-day as little Miss Allen, mounted on Snowball, rode into the ring in the pony other than Shetlands' event. The child rode astride like a little trooper in corduroy knickers, riding Jacket and cocked hot. Her curls, blowing back from the

head, matched the costuming, and although Snowball falled to take a prize It was not the fault of the little rider. It was children's morning, the events being all in the pony class, and the youngsters raced around the ringside with delighted "ohs" and "ahs" as the handsome little horses were brought in.

Didn't Mind the Cold.

"Speaking of society women's dress, look there," said a shivering, overcoated man, standing at the ringside as a little girl ran by. The child was arrayed in a short white frock and black picture hat, her sleeves came to her elbows, showing bare to the wrists. where gloves covered her small hands. Stockings of the most stylish make meached her knees, the limbs from knees to the short skirt line being bare.

Without the least sign of the chill that was cooling the heavily-dressed horseman, the child played among the boxes and applauded with delight the ponies with their little riders. The first event for pairs of ponies had
